

Virtual Interior Design Assistant

Services & Pricing Guide

Forrest & Foxes Interiors

Stephanie Forrest Raposo

Thank you for your interest in my Virtual Interior Design Assistant services! Let me take a few moments to tell you a little bit about myself.

Stephanie Forrest Raposo

Hello!

I'm Stephanie, a Virtual Interior Design Assistant living in Toronto, Canada.

After rounding out a full chapter of life experience in food science and nutrition marketing, I transitioned to the world of interior design — virtually! This has allowed me to use the different facets of my various experiences in one consistent and beautiful way. My background has helped me ensure that my work is meticulous, while my strong technical skills, detail-oriented nature, and design skills have helped me bring professionalism to all my projects. I have it down to a science.

As an avid learner, I am constantly levelling up my skill set, including:

Design Virtual Assistant Certification
Product Modeller Certification
SketchUp Certifications

I am always happy to remotely assist designers like you, as needed, so you can focus on other tasks. Get in touch and let's chat about how I can best support you with your next design project.
